

Accepted Manuscript

Organic carbon, influent microbial diversity and temperature strongly influence microalgal diversity and biomass in raceway ponds treating raw municipal wastewater

Dae-Hyun Cho, Rishiram Ramanan, Jina Heo, Zion Kang, Byung-Hyuk Kim, Hee-Mock Oh, Hee-Sik Kim

PII: S0960-8524(15)00182-0
DOI: <http://dx.doi.org/10.1016/j.biortech.2015.02.013>
Reference: BITE 14585

To appear in: *Bioresource Technology*

Received Date: 6 January 2015
Revised Date: 5 February 2015
Accepted Date: 6 February 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Organic carbon, influent microbial diversity and temperature strongly influence**
2 **microalgal diversity and biomass in raceway ponds treating raw municipal wastewater**
