This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Childhood Behavior Problems and Academic Outcomes in Adolescence: Longitudinal
Population-Based Study

Running Title: Behavior Problems and Academic Outcomes

Kapil Sayal, MRCPsych, PhD; Elizabeth Washbrook, PhD; Carol Propper, PhD

This article is discussed in an editorial by Dr. Manpreet Singh on p. xx.

Clinical guidance is available at the end of this article.

Supplemental material cited in this article is available online.

Accepted February 24, 2015.

Dr. Sayal is with the Division of Psychiatry and Applied Psychology, School of Medicine, University of Nottingham, UK and the Centre for ADHD and Neurodevelopmental Disorders Across the Lifespan (CANDAL), Institute of Mental Health, Nottingham. Dr. Washbrook is with the Centre for Multilevel Modelling, University of Bristol, UK. Dr. Propper is with the University of Bristol.

The UK Medical Research Council and the Wellcome Trust (Grant ref: 092731) and the University of Bristol provide core support for the Avon Longitudinal Study of Parents and Children (ALSPAC). This publication is the work of the authors who will serve as guarantors for the contents of this paper. This research was specifically funded by the Economic and Social Research Council Grant Number RES-060-23-0011: Impact of Family Socio-economic Status on Outcomes in Childhood and Adolescence.

Dr. Washbrook served as the statistical expert for this research.

The authors are extremely grateful to all the families who took part in this study, the midwives for their help in recruiting them, and the whole ALSPAC team, which includes interviewers, computer and laboratory technicians, clerical workers, research scientists, volunteers, managers, receptionists, and nurses.

Disclosure: Drs. Sayal, Washbrook, and Propper report no biomedical financial interests or potential conflicts of interest.
