

## Accepted Manuscript

Effect of non-enzymatic proteins on enzymatic hydrolysis and simultaneous saccharification and fermentation of different lignocellulosic materials

Wang Hui, Kobayashi Shinichi, Mochidzuki Kazuhiro

PII: S0960-8524(15)00646-X

DOI: <http://dx.doi.org/10.1016/j.biortech.2015.04.112>

Reference: BITE 14953

To appear in: *Bioresource Technology*

Received Date: 18 March 2015

Revised Date: 28 April 2015

Accepted Date: 29 April 2015

Please cite this article as: Hui, W., Shinichi, K., Kazuhiro, M., Effect of non-enzymatic proteins on enzymatic hydrolysis and simultaneous saccharification and fermentation of different lignocellulosic materials, *Bioresource Technology* (2015), doi: <http://dx.doi.org/10.1016/j.biortech.2015.04.112>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effect of non-enzymatic proteins on enzymatic hydrolysis and simultaneous  
saccharification and fermentation of different lignocellulosic materials**
