This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **The Impact of Case Definition on Attention-Deficit/Hyperactivity Disorder Prevalence Estimates in Community-Based Samples of School-Aged Children**

RH = Case Definition and ADHD Prevalence

Robert E. McKeown, PhD; Joseph R. Holbrook, PhD; Melissa L. Danielson, MSPH; Steven P. Cuffe, MD; Mark L. Wolraich, MD; Susanna N. Visser, DrPH

Accepted November 7, 2014

Dr. McKeown is with the University of South Carolina Arnold School of Public Health, Columbia, SC. Drs. Holbrook and Visser and Ms. Danielson are with the Centers for Disease Control and Prevention (CDC), National Center on Birth Defects and Developmental Disabilities, Atlanta. Dr. Cuffe is with the University of Florida College of Medicine – Jacksonville. Dr. Wolraich is with the University of Oklahoma (OU) Health Sciences Center, OU Child Study Center, Oklahoma City.

This article was supported by the Centers for Disease Control and Prevention through cooperative agreements U50/CCU622315-02 and U84/CCU422516-02 and contracts 200-2006-18912 and 200-2006-18949. The findings and conclusions in this report are those of the authors and do not necessarily represent the official position of the Centers for Disease Control and Prevention.

Ms. Danielson served as the statistical expert for this research.

Disclosure: Dr. McKeown has received research support from the CDC and has been a consultant for the Greenville (South Carolina) Health System. Dr. Cuffe has received research support from the CDC, Nexstim Corporation, and Otsuka Pharmaceutical Co. indirectly through Northshore-Long Island Jewish Health System. Dr. Wolraich has received honoraria for the Pediatric Psychopharmacology courses sponsored by the REACH Institute, a non-profit organization. He also has received an honorarium from Mead Johnson indirectly for a presentation at the Annual Lionel Zheutlin Memorial Lecture, Valley Hospital, Paramus, NJ. Drs. Holbrook, Visser, and Ms. Danielson report no biomedical financial interests or potential conflicts of interest.

Correspondence to Susanna N. Visser, DrPH, National Center on Birth Defects and Developmental Disabilities, Centers for Disease Control and Prevention, E-88, 1600 Clifton Road, Atlanta, GA 30340; email: [svisser@cdc.gov](mailto:svisser@cdc.gov).
