No association of salivary total tau concentration with Alzheimer's disease

Nicholas J. Ashton, Mark Ide, Michael Schöll, Kaj Blennow, Simon Lovestone, Abdul Hye, Henrik Zetterberg

PII: S0197-4580(18)30218-5

DOI: [10.1016/j.neurobiolaging.2018.06.014](https://doi.org/10.1016/j.neurobiolaging.2018.06.014)

Reference: NBA 10286

To appear in: *Neurobiology of Aging*

Received Date: 3 April 2018

Revised Date: 11 June 2018

Accepted Date: 11 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

No association of salivary total tau concentration with Alzheimer's disease
