Genetic screening in early-onset dementia patients with unclear phenotype: relevance for clinical diagnosis

Federica Perrone, MSc, Rita Cacace, PhD, Sara Van Mossevelde, MD, Tobi Van den Bossche, MD, Peter P. De Deyn, MD, PhD, Patrick Cras, MD, PhD, Sebastiaan Engelborghs, MD, PhD, Julie van der Zee, PhD, Christine Van Broeckhoven, PhD, DSc

PII: S0197-4580(18)30149-0

DOI: [10.1016/j.neurobiolaging.2018.04.015](https://doi.org/10.1016/j.neurobiolaging.2018.04.015)

Reference: NBA 10229

To appear in: *Neurobiology of Aging*

Received Date: 26 December 2017

Revised Date: 8 April 2018

Accepted Date: 27 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
