

# Accepted Manuscript

Glycosphingolipid levels and glucocerebrosidase activity are altered in normal aging of mouse brain

Penelope J. Hallett, Mylene Huebecker, Oeystein R. Brekk, Elizabeth B. Moloney, Emily M. Rocha, David A. Priestman, Frances M. Platt, Ole Isacson

PII: S0197-4580(18)30115-5

DOI: [10.1016/j.neurobiolaging.2018.02.028](https://doi.org/10.1016/j.neurobiolaging.2018.02.028)

Reference: NBA 10207

To appear in: *Neurobiology of Aging*

Received Date: 15 December 2017

Revised Date: 22 February 2018

Accepted Date: 25 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
