A bell-shaped dependence between amyloidosis and GABA accumulation in astrocytes in a mouse model of Alzheimer's disease

Bianca Brawek, Robert Chesters, Daniel Klement, Julia Müller, Chommanad Lerdkrai, Marina Hermes, Olga Garaschuk

PII: S0197-4580(17)30324-X

DOI: [10.1016/j.neurobiolaging.2017.09.028](https://doi.org/10.1016/j.neurobiolaging.2017.09.028)

Reference: NBA 10048

To appear in: *Neurobiology of Aging*

Received Date: 2 June 2017

Revised Date: 25 September 2017

Accepted Date: 27 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
