Reconfiguration of brain network architecture to support executive control in aging

Courtney L. Gallen, Gary R. Turner, Areeba Adnan, Mark D'Esposito

PII: S0197-4580(16)30030-6

DOI: [10.1016/j.neurobiolaging.2016.04.003](https://doi.org/10.1016/j.neurobiolaging.2016.04.003)

Reference: NBA 9581

To appear in: *Neurobiology of Aging*

Received Date: 30 September 2015

Revised Date: 11 March 2016

Accepted Date: 9 April 2016

Please cite this article as: Gallen, C.L., Turner, G.R., Adnan, A., D'Esposito, M., Reconfiguration of brain network architecture to support executive control in aging, *Neurobiology of Aging* (2016), doi: 10.1016/j.neurobiolaging.2016.04.003.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Reconfiguration of brain network architecture to support executive control in aging
