Role of DHA in aging-related changes in mouse brain synaptic plasma membrane proteome

Vishaldeep K. Sidhu, Bill X. Huang, Abhishek Desai, Karl Kevala, Hee-Yong Kim

PII: S0197-4580(16)00150-0

DOI: [10.1016/j.neurobiolaging.2016.02.007](https://doi.org/10.1016/j.neurobiolaging.2016.02.007)

Reference: NBA 9520

To appear in: *Neurobiology of Aging*

Received Date: 27 February 2013

Revised Date: 4 January 2016

Accepted Date: 7 February 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Role of DHA in aging-related changes in mouse brain synaptic plasma
membrane proteome**
