Functional connectivity change across multiple cortical networks relates to episodic memory changes in aging

Anders M. Fjell, Markus H. Sneve, Håkon Grydeland, Andreas B. Storsve, Ann-Marie Glasø de Lange, Inge K. Amlien, Ole J. Røgeberg, Kristine B. Walhovd

PII: S0197-4580(15)00431-5

DOI: [10.1016/j.neurobiolaging.2015.08.020](https://doi.org/10.1016/j.neurobiolaging.2015.08.020)

Reference: NBA 9368

To appear in: *Neurobiology of Aging*

Received Date: 16 March 2015

Revised Date: 14 August 2015

Accepted Date: 18 August 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Functional connectivity change across multiple cortical networks relates to episodic memory
changes in aging**

Abbreviated title: Functional connectivity and memory in aging
