This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Our participants were adolescents experiencing the 2016 Yancheng Tornado.
- PTSS had a stable and negative effect on trait mindfulness in adolescent survivors of natural disasters.
- The relations of PTG to PTSS or trait mindfulness were not detected.
