Title: Polymorphic variation in the *SLC5A7* gene influences infant autonomic reactivity and self-regulation: A neurobiological model for ANS stress responsivity and infant temperament

Authors: Christopher W. Jones, Sarah A.O. Gray, Katherine P. Theall, Stacy S. Drury

PII: S0306-4530(17)31475-0
DOI: <https://doi.org/10.1016/j.psyneuen.2018.06.019>
Reference: PNEC 3975

To appear in:

Received date: 8-11-2017
Revised date: 23-6-2018
Accepted date: 23-6-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Jones et al. 1

Title: Polymorphic variation in the *SLC5A7* gene influences infant autonomic reactivity and self-regulation: A neurobiological model for ANS stress responsivity and infant temperament

List of authors:

Mr. Christopher W. JONES, B.A.; New Orleans, LA; Tulane Brain Institute, Department of Neuroscience, Tulane University

Dr. Sarah A.O. GRAY, Ph.D.; New Orleans, LA; Department of Psychology, Tulane University, School of Science and Engineering

Dr. Katherine P. THEALL, Ph.D.; New Orleans, LA; Department of Global Community Health and Behavioral Sciences, Tulane University School of Public Health and Tropical Medicine

Dr. Stacy S. DRURY, M.D.,Ph.D.; New Orleans, LA; Tulane Brain Institute, Department of Neuroscience, Tulane University; Department of Psychiatry and Behavioral Sciences, Tulane University School of Medicine

Corresponding author:

Stacy S. Drury

Department of Psychiatry and Behavioral Science, Division of Child and Adolescent Psychiatry, Associate Director, Tulane Brain Institute

1430 Tulane Ave #8055

New Orleans, LA 70112
