

## Accepted Manuscript

Title: Anteroventral bed nuclei of the stria terminalis neurocircuitry: towards an integration of HPA axis modulation with coping behaviors

Authors: Jason J. Radley, Shane B. Johnson

PII: S0306-4530(17)31296-9  
DOI: <https://doi.org/10.1016/j.psyneuen.2017.12.005>  
Reference: PNEC 3783

To appear in:

Received date: 22-8-2017  
Revised date: 19-11-2017  
Accepted date: 11-12-2017

Please cite this article as: Radley, Jason J., Johnson, Shane B., Anteroventral bed nuclei of the stria terminalis neurocircuitry: towards an integration of HPA axis modulation with coping behaviors. *Psychoneuroendocrinology* <https://doi.org/10.1016/j.psyneuen.2017.12.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***Anteroventral bed nuclei of the stria terminalis neurocircuitry:  
towards an integration of HPA axis modulation with coping behaviors***
