Department of Psychology, Arizona State University, Tempe AZ, 85287-3604

Author Notes: HG-D, PV and EH contributed to the design of the study; RP and PV coordinated data collection; EWY conducted the statistical analyses; and all authors contributed to writing the manuscript. Some of the work on this project was completed at the Institute for Interdisciplinary Salivary Bioscience Research before it moved from Arizona State University to the University of California at Irvine in the spring of 2016.
