This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Time-dependent effects of dexamethasone plasma concentrations on glucocorticoid receptor challenge tests

Running title: Impact of dexamethasone plasma concentrations on HPA axis evaluation

Andreas Menke, M.D.^{1,2}, Janine Arloth, Ph.D.², Johanna Best², Christian Namendorf², Tamara Gerlach², Darina Czamara, Ph.D.², Susanne Lucae M.D., Ph.D.⁶, Boadie W.
