This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Conflicts of interest: none

Highlights

- The productivity and co-authorship index is low. The Arts in Psychotherapy is the journal that publishes the most on this topic.
- Drama therapy and theater are presented as an innovative intervention tool used in multiple areas, age groups and populations.
- Most of the programs contain personal and social development as a central component.

Drama Therapy and Theater as an Intervention Tool: Bibliometric Analysis of Programs Based on Drama Therapy and Theater.

Abstract

This bibliometric analysis focuses on the use of drama therapy and theater as a therapeutic tool in intervention programs.

The search was carried out in five databases: Wos, Scopus, Eric, Medline and PsycInfo.

Three keywords were used and two searches were performed: drama therapy, theater and program. At the end of the search, 136 documents were obtained, out of which 102 were articles, 18 theses, 6 books, 9 book chapters, and 1 proceeding. No temporal adjustment was applied. The documents presented in the analysis are those that met the selection criteria and are prior to and including 2016. The analysis was conducted in two sections: on the one hand, productivity indicators: years of production, most productive authors, types of studies, collaborations, and most productive institutions, publishing houses or journals; on the other
