This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

I Hear but I Don't See You: Interacting Over Phone Reduces the Accuracy of Perceiving

Affiliation in the Other

Gentiana Sadikaj and *D. S. Moskowitz

McGill University

Author Note

Department of Psychology, McGill University, 2001 McGill College Avenue, Montreal, QC, Canada H3A 1G1

Acknowledgments. This research was supported by a grant from SSHRC (410-2010-1168) to the second author. The authors would like to thank Kevin Jamey and Sara Del Bello for their assistance with data collection. We express our appreciation to Simon D. Young for his helpful comments on an earlier version of this article.
