This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Paper examines school turnaround in North Carolina elementary and middle schools.
- Turnaround efforts did not improve and may have decreased math and reading scores.
- Program increased administrative burdens.
