Accepted date: 22-9-2014

Please cite this article as: Lorraine, and Wyness, G., Money for nothing: estimating the impact of student aid on participation in Higher Education, *Economics of Education Review* (2014), <http://dx.doi.org/10.1016/j.econedurev.2014.09.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We estimate the impact of student aid on higher education participation in the UK
- We use a policy reform which re-introduced aid to students from poor families
- A £1,000 increase in aid results in a 3.95 increase in participation
