This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights of 'The determinants of international mobility of students'

1. We study the determinants of location choice of foreign students.
2. We analyze that issue in a multi-origin multi-destination framework.
3. We find evidence of a network effect for the migration of students
4. .We find that quality of education and costs of living at destination play a role.
5. The role of education fees is more ambiguous.
