Permission and acknowledgments

Permission for conducting this research was given by the ethics committee of the Netherlands Association for Medical Education (NVMO).

I would like to thank VUmc Amstel Academy and VUmc for giving me the opportunity to conduct this research, and the AMC-UvA professors of Evidence-based Practice, for their expertise and enthusiastic supervision. But most of all, I owe many thanks to the panel members, the experts, all the students, nurse coaches and not least my fellow nurse educators who took part in this study.

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.
