The Editorial Team would like to extend its gratitude to the following colleagues for your wonderful support in 2015. We are constantly delighted by the care shown by reviewers and the thoughtfulness and detail of the reviews we receive. We know that the authors who are guided by your advice also greatly appreciate the depth of feedback they receive. With an ever-increasing volume of manuscripts, we rely on your good will and commitment to the Journal to ensure that these high standards continue. We thank you for your willingness to undertake reviews and, when you are unable to help, for your recommendations of other academics to approach. We also wish to acknowledge your editorial contribution to research and scholarship, more broadly, as the work of our international authors is enhanced under the guidance of your knowledge and expertise.

We wish you all the very best for 2016 and look forward to continuing this important work with such a professional, dedicated, and expanding team of reviewers.
