On Accepted Manuscript

Paper :

A Novel Multiple Attribute Decision Making Approach Based on Interval Data Using U2P-Miner Algorithm

Author :

Hêriş Golpîra

Dear Professor Michael

The author would like to greatly thank for all the time and efforts contributed to accept the manuscript. According to the message has been sent from the editorial office of the journal, the photo and biography of the author can be found below.

Editorial Office:

Message: I am pleased to inform you that your paper has been accepted for publication.

Comments are appended at the end. Now that your manuscript has been accepted for publication it will proceed to copy-editing and production.

If you have not already uploaded photos and bios of all authors, please email them to Michael at dke4@csc.lsu.edu.

Response: The Biography of the author is as follows:

Hêriş Golpîra accomplished his BSc in Industrial Engineering at University of Kurdistan, Iran (2003), and MSc in Industrial Engineering at University of Science and Technology (IUST), Tehran, Iran (2006). He obtained his PhD in Industrial Engineering-Operations Research and System Engineering from Sciences & Research Branch, Islamic Azad University, Tehran, Iran (2015). Currently, He is an Assistant Professor at Department of Industrial Engineering, Islamic Azad University, Sanandaj Branch, Kurdistan, Iran. His research is in the areas of Applied Operations Research especially in Electricity Marketing, Decision Making under Uncertainty, Scheduling, and Supply Chain Management. Dr. Golpîra has published articles in such journals as Computers & Industrial Engineering, Sustainable Cities and Society, and Energy Conversion and Management.
