This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Model users' time-sensitive preference on music
- Use non-negative matrix factorization to provide time-sensitive music recommendation
- Conduct extensive experiments over real-world data for evaluation
