This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- A secure high-efficient watermarking scheme for copyright protection is proposed.
- The security and robustness of watermarks has been improved significantly.
- Time consuming in the watermarking scheme has been reduced to a certain extent.
