Accepted Manuscript

HCIDL: Human-Computer Interface Description Language for multi-target, multimodal, plastic user interfaces

Abdelkrim Benamar, Lamia Gaouar, Olivier Le Goaer, Frédérique Biennier

PII: S2314-7288(17)30054-5

Reference: FCIJ 34

DOI:

To appear in: Future Computing and Informatics Journal

10.1016/j.fcij.2018.02.001

Received Date: 27 August 2017

Revised Date: 20 December 2017

Accepted Date: 7 February 2018

Please cite this article as: Benamar A, Gaouar L, Le Goaer O, Biennier F, HCIDL: Human-Computer Interface Description Language for multi-target, multimodal, plastic user interfaces, *Future Computing and Informatics Journal* (2018), doi: 10.1016/i.fcii.2018.02.001.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
