

## Accepted Manuscript

Brain Electroencephalographic segregation as a biomarker of learning

Francesca Miraglia, Fabrizio Vecchio, Paolo Maria Rossini

PII: S0893-6080(18)30204-1

DOI: <https://doi.org/10.1016/j.neunet.2018.07.005>

Reference: NN 3988

To appear in: *Neural Networks*

Received date: 8 September 2017

Revised date: 5 July 2018

Accepted date: 9 July 2018

Please cite this article as: Miraglia, F., Vecchio, F., Rossini, P.M., Brain Electroencephalographic segregation as a biomarker of learning. *Neural Networks* (2018), <https://doi.org/10.1016/j.neunet.2018.07.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
