This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- A general method for unsupervised learning for routing problems is proposed.
- The method is called Growing Self-Organizing Array (GSOA).
- GSOA is evaluated in benchmarks for the TSP and Close-Enough TSP.
