Vehicular datacenter modeling for cloud computing: Considering capacity and leave rate of vehicles

Taesik Kim, Hong Min, Jinman Jung

PII: S0167-739X(18)30048-7
DOI: <https://doi.org/10.1016/j.future.2018.05.052>
Reference: FUTURE 4227

To appear in: *Future Generation Computer Systems*

Received date : 7 January 2018
Revised date : 31 March 2018
Accepted date : 23 May 2018

Please cite this article as: T. Kim, H. Min, J. Jung, Vehicular datacenter modeling for cloud computing: Considering capacity and leave rate of vehicles, *Future Generation Computer Systems* (2018), <https://doi.org/10.1016/j.future.2018.05.052>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
