This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

- We proposed the network architecture combining WBAN and cloud.
- We designed the robust combination and interaction of TCP/IP and Zigbee.
- We improved the quality of transmission data by the adaptive streaming method.
- We have simulated our proposed network on OPNET Modeler.
