On NC Algorithms for Problems on Bounded Rank-width Graphs

Bireswar Das, Anirban Dasgupta, Murali Krishna Enduri, I. Vinod Reddy

PII: S0020-0190(18)30154-6
DOI: <https://doi.org/10.1016/j.ipl.2018.07.007>
Reference: IPL 5723

To appear in: *Information Processing Letters*

Received date: 17 October 2017
Revised date: 24 May 2018
Accepted date: 13 July 2018

Please cite this article in press as: B. Das et al., On NC Algorithms for Problems on Bounded Rank-width Graphs, *Inf. Process. Lett.* (2018), <https://doi.org/10.1016/j.ipl.2018.07.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We show that for a fixed k , there is an NC algorithm that separates the graphs of rank-width at most k from those with rank-width at least $3k + 1$.
