Title: On Enhancing the Object Migration Automaton using the *Pursuit* Paradigm

Author: Abdolreza Shirvani B. John Oommen

PII: S1877-7503(17)30225-9  
DOI: <http://dx.doi.org/doi:10.1016/j.jocs.2017.08.008>  
Reference: JOCS 741

To appear in:

Received date: 27-2-2017  
Revised date: 9-5-2017  
Accepted date: 8-8-2017

Please cite this article as: Abdolreza Shirvani, B. John Oommen, On Enhancing the Object Migration Automaton using the *Pursuit* Paradigm, *Journal of Computational Science* (2017), <http://dx.doi.org/10.1016/j.jocs.2017.08.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Research Highlights of the Paper

- We present new LA-based techniques for the *partitioning* problem.
- The legacy benchmark LA algorithms have been enhanced by *Pursuit* methods to render them many times faster.
- The results have been tested for many benchmark datasets.
