Incremental computing with data structures

Akimasa Morihata

PII: S0167-6423(17)30069-2
DOI: <http://dx.doi.org/10.1016/j.scico.2017.04.001>
Reference: SCICO 2084

To appear in: *Science of Computer Programming*

Received date: 16 June 2016
Revised date: 30 March 2017
Accepted date: 4 April 2017

Please cite this article in press as: A. Morihata, Incremental computing with data structures, *Sci. Comput. Program.* (2017), <http://dx.doi.org/10.1016/j.scico.2017.04.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- A new incremental computing method is proposed.
- The method is useful for incremental computing on abstract data structures.
- The method is based on parametricity of polymorphic types.
- The method is datatype-generic and applicable to any tree-like structures.
