Thermal stratification effects on MHD radiative flow of nanofluid over nonlinear stretching sheet with variable thickness

Yahaya Shagaiya Daniel, Zainal Abdul Aziz, Zuhaila Ismail, Faisal Salah

PII: S2288-4300(17)30124-0
DOI: <http://dx.doi.org/10.1016/j.jcde.2017.09.001>
Reference: JCDE 104

To appear in: *Journal of Computational Design and Engineering*

Received Date: 3 July 2017
Revised Date: 8 September 2017
Accepted Date: 8 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Thermal stratification effects on MHD radiative flow of nanofluid over
nonlinear stretching sheet with variable thickness**
