Methodology of Electrochemical Capacitor Quality Control with Fractional Order Model

Valeriy Martynyuk, Manuel Ortigueira, Mykola Fedula, Oleg Savenko

PII: S1434-8411(17)32928-X

DOI: <https://doi.org/10.1016/j.aeue.2018.05.005>

Reference: AEUE 52326

To appear in: *International Journal of Electronics and Communications*

Received Date: 21 December 2017

Accepted Date: 6 May 2018

Please cite this article as: V. Martynyuk, M. Ortigueira, M. Fedula, O. Savenko, Methodology of Electrochemical Capacitor Quality Control with Fractional Order Model, *International Journal of Electronics and Communications* (2018), doi: <https://doi.org/10.1016/j.aeue.2018.05.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Methodology of Electrochemical Capacitor Quality Control with Fractional Order Model
