Biographical Sketch

Chen Zhong is an assistant professor of Informatics at Indiana University Kokomo. She received her doctoral degree in Information Sciences and Technology from Pennsylvania State University in 2016. Before that, she received a bachelor's degree in computer science from Nanjing University in 2011. Her current research interest includes cyber defense analysis, cyber situational awareness, human computer interaction, knowledge elicitation and intelligent systems.

Tao Lin a second-year graduate student at College of Information Sciences and Technology, Pennsylvania State University. He received a master degree with distinction in Computer Software and Theory from Shanghai Normal University in 2016 and received double bachelor degrees with distinction in Computer Science and Business Administration. His research interests are in cyber security and machine learning.

Peng Liu is a full professor of Information Sciences and Technology at Pennsylvania State University. He received his doctoral degree in Information Technology from George Mason University in 1999. His research interest includes systems security and survivability, database systems, distributed systems, and peer-to-peer systems in the contexts of E-Commerce, digital health care, digital government, command & control, digital infrastructure systems, and web and wireless applications.

John Yen is a full professor of Information Sciences and Technology at Pennsylvania State University. He received his doctoral degree in Computer Science from University of California,
