This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Solving Stackelberg Security Markov Games Employing the Bargaining Nash Approach: Convergence Analysis

Daniel Guerrero^{a,b}, Alin A. Carsteanu^{a,b}, Julio B. Clempner^{a,b,*}

^b*School of Physics and Mathematics, National Polytechnic Institute, 07738, Mexico City, Mexico*

Daniel Guerrero holds a M.Sc. from the School of Physics and Mathematics, (ESFM-IPN), Mexico. He received her B.Sc. in Physics and Mathematics from the School of Physics and Mathematics at the National Polytechnic Institute, Mexico. He follows a line of investigation focused on commutative algebra, game theory and optimization research.
