This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Name: Debanjan Sadhya

Affiliation/ Address: Department of Computer Science and Engineering, IIT-BHU, Varanasi

e-mail: debanjan.sadhya@gmail.com, dsadhya.rs.cse13@itbhu.ac.in

Mr. Debanjan Sadhya completed his Bachelor's (B-Tech, Specialization - Computer Science and Engg.) from SIT, Siliguri, India in 2006 and his Master's (M-Tech, Specialization - Wireless Communication and Computing) from IIIT-Allahabad, Allahabad, India in 2013. Currently he is pursuing his PhD from IIT-BHU, Varanasi in the area of biometric encryption. His main areas of interest include biometrics, information security, data privacy, cryptography and computer networks.

Name: Dr. Sanjay Kumar Singh

Affiliation/ Address: Associate Professor, Department of Computer Science and Engineering, IIT-BHU, Varanasi.

e-mail: sks.cse@itbhu.ac.in

Dr. Sanjay Kumar Singh completed his B. Tech. in Computer Engg., M. Tech. in Computer Applications and Ph.D. in Computer Science and Engineering. Currently he is an associated professor at the Department of Computer Science and Engineering, IIT BHU, Varanasi. He is a Certified Novell Engineer (CNE) from Novell Netware, USA and a Certified Novell Administrator (CNA) from Novell Netware, USA. He is a member of LIMSTE, IEE, International Association of Engineers and ISCE. His research areas include Biometrics, Computer Vision, Image Processing, Video Processing, Pattern Recognition and Artificial Intelligence. He has over 50 national and international journal publications, book chapters and conference papers.

Privacy Preservation For Soft Biometrics Based Multimodal Recognition System

Abstract

There has been a recent proliferation in the utilization of biometric systems as an access granting mechanism for various applications. Recent researches have demonstrated that the overall
