

Accepted Manuscript

Early Validation of System Requirements and Design Through
Correctness-by-Construction

Emmanouela Stachtiari, Anastasia Mavridou, Panagiotis Katsaros,
Simon Bliudze, Joseph Sifakis

PII: S0164-1212(18)30150-X
DOI: [10.1016/j.jss.2018.07.053](https://doi.org/10.1016/j.jss.2018.07.053)
Reference: JSS 10201

To appear in: *The Journal of Systems & Software*

Received date: 26 September 2017
Revised date: 14 March 2018
Accepted date: 17 July 2018

Please cite this article as: Emmanouela Stachtiari, Anastasia Mavridou, Panagiotis Katsaros, Simon Bliudze, Joseph Sifakis, Early Validation of System Requirements and Design Through Correctness-by-Construction, *The Journal of Systems & Software* (2018), doi: [10.1016/j.jss.2018.07.053](https://doi.org/10.1016/j.jss.2018.07.053)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- we provide templates and a conceptual model for requirement specification;
- we give interpretation of the templates using formal property patterns
- we show how property patterns can be enforced through architecture styles;
- all safety properties of the case study were enforced or verified by inspection;
- the design model and the modeling/verification utilities are online.
