

## Accepted Manuscript

Multi-paradigm Deception Modeling for Cyber Defense

Cristiano De Faveri, Ana Moreira, Vasco Amaral

PII: S0164-1212(18)30049-9  
DOI: [10.1016/j.jss.2018.03.031](https://doi.org/10.1016/j.jss.2018.03.031)  
Reference: JSS 10127

To appear in: *The Journal of Systems & Software*

Received date: 1 April 2017  
Revised date: 10 March 2018  
Accepted date: 16 March 2018

Please cite this article as: Cristiano De Faveri, Ana Moreira, Vasco Amaral, Multi-paradigm Deception Modeling for Cyber Defense, *The Journal of Systems & Software* (2018), doi: [10.1016/j.jss.2018.03.031](https://doi.org/10.1016/j.jss.2018.03.031)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Multi-paradigm modeling approach and tool for deception-based defense
- Metamodel combination of multiple modeling paradigms
- Deception tactics integration into system operation
- Expressive power of the model-based deception approach
- Deception tactics catalogue for the overall systems' security
