Engineering Context-Aware Systems and Applications: A survey

Unai Alegre, Juan Carlos Augusto, Tony Clark

PII: S0164-1212(16)00046-7
DOI: 10.1016/j.jss.2016.02.010
Reference: JSS 9680

To appear in: *The Journal of Systems & Software*

Received date: 22 June 2015
Revised date: 3 February 2016
Accepted date: 8 February 2016

Please cite this article as: Unai Alegre, Juan Carlos Augusto, Tony Clark, Engineering Context-Aware Systems and Applications: A survey, *The Journal of Systems & Software* (2016), doi: 10.1016/j.jss.2016.02.010

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Survey the efforts of the community in order to encourage a *Context-Aware Systems Engineering* process.
- Analysis of the state-of-the-art engineering techniques applied in the most common development stages.
- A study of existing methodologies within these development stages.
- The main challenges remaining open in the Context-Aware Computing field.
