Mining Trends and Patterns of Software Vulnerabilities

Syed Shariyar Murtaza , Wael Khreich ,
Abdelwahab Hamou-Lhadj , Ayse Bener

PII: S0164-1212(16)00079-0
DOI: [10.1016/j.jss.2016.02.048](https://doi.org/10.1016/j.jss.2016.02.048)
Reference: JSS 9699

To appear in: *The Journal of Systems & Software*

Received date: 9 August 2015
Revised date: 9 February 2016
Accepted date: 28 February 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

- Descriptions of additional papers have been added.
- New results for predictions of vulnerabilities by using the similar software applications have been added.
- Introduction has been modified to provide more explanation about the problem and the solution.
- Vulnerability sequences are following a first order Markov property.
