This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- A decision support system for exercise rehabilitation at home was developed.
- Real-life and simulation studies with CVD patients were performed.
- Results showed the effectiveness of the adopted rule-based approach.
- Patients were guided to the beneficial execution of their rehabilitation program.
