On the Choquet multiple criteria preference aggregation model:
Theoretical and practical insights from a real-world application

M. Bottero, V. Ferretti, J.R. Figueira, S. Greco, B. Roy

PII: S0377-2217(18)30325-4
DOI: [10.1016/j.ejor.2018.04.022](https://doi.org/10.1016/j.ejor.2018.04.022)
Reference: EOR 15084

To appear in: *European Journal of Operational Research*

Received date: 7 February 2017
Revised date: 7 April 2018
Accepted date: 11 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Strengths and weaknesses of Choquet integral in an application within a focus group.
- Some theoretical and practical aspects of the Choquet Integral
- A new procedure to build the common utility interval scale of Choquet integral
- A new procedure for defining the capacities (ratio scale) of the Choquet integral
