This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We present a novel taxonomy for treating contingent payment mechanisms
- We develop a real options model to entrepreneurial finance with contingent payments
- We show that optimum contingent payments do not influence optimum investment timing
- We show that the value of optimum contingent payments do not depend on their type
