This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Broader vision and analysis of freight intermodal transportation
- First taxonomy of simulation in freight intermodal transportation
- Analysis of the recent literature: 89 papers from 2007 to 2017
