This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Community operational research problems often demands greater focus on institutions
- 4 step approach to participatory institutional analysis to enhance problem structuring
- Results from application in peri-urban villages in Khulna to address water access issues
- Promising results for analytical framework and game theory methods as problem structuring tools
- Approach requires intensive, two-way capacity building between community and analyst
