This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Highlights

- A new synergy of methods developed for Community Operational Research is proposed.
- Conflict resolution methods can contribute to Community Operational Research interventions.
- A new perspective is offered on Community Operational Research and politics.
- The empowerment of communities generates "ripple effects" in social contexts.
- An alternative to practice a critical use of empirical-analytic methods is offered.
