This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- A systematic comparison of Community Operational Research and Citizen Science to reveal points of commonality and difference.
- Exploration of how alignment of Community Operational Research and Citizen Science might be realised at micro, meso and macro levels.
- Recognition of the importance of proximity to policy makers and approaches for structuring issues and dealing with contestable knowledge claims.
